Bento for iPhone

Organise contacts, track projects, plan events and manage things – all in one easy to use iPhone app!

Meet Bento for iPhone

Bento for iPhone is one of the top iPhone apps and the most popular personal database for iPhone.

Organise contacts, track projects, plan events and manage things – all in one easy to use iPhone app that you can use standalone or synchronise with Bento for Mac!

Get started in seconds

Bento for iPhone includes 25 templates that are ready to use at work, home, school and in your community. Easily customise them to organise virtually any type of information you have.

Stays in sync

Similar to Bento for iPad, Bento for iPhone is a great standalone app. It also synchronises directly with Bento running on a Mac, so you can automatically keep your desktop and device up-to-date whether editing information on your Mac or iPhone.

Note: Synchronisation requires Bento 4 for Mac and a Wi-Fi wireless network connection.

Plays well with others

Bento for iPhone works with the information and applications you already have on your mobile device, such as Contacts, Safari, Mail and Google Maps for a truly integrated iPhone experience.
